

EDUPRIZE Grade 3 Academic Extensions During School Closures

	Monday 3/23	Tuesday 3/24	Wednesday 3/25	Thursday 3/26	Friday 3/27
Math		DreamBox 15 minutes Student access If needed, check with the teacher for username and password.	Complete THIS word problem practice page on perimeter.	DreamBox 15 minutes Student access If needed, check with the teacher for username and password.	Draw 5 of your own rectangles or squares, label their length, and include the total perimeter of the shapes.
Reading		Read the story Garlic Ice Cream? Share the main idea of this story as well as three details. Share your opinion - would you try garlic ice cream?	Free Choice. Read any book to your child or have your child read one book to you. Have them tell you what the story was mostly about.	Read the story A Garden in the City HERE. Share the main idea of this story as well as three details. If you don't have a garden already, share some things that you would want to grow.	Free Choice. Read any book to your child or have your child read one book to you. Have them tell you what the story was mostly about.
Writing		In the story Garlic Ice Cream? the author explained what they were seeing and experiencing. Today you are going to begin doing that through a journal or a diary. Each day this week you will add one entry to your journal, explaining what you did during the day, things that are happening in your home and community and how you are feeling. HERE is a sample of a diary from someone that was traveling across the Oregon Trail long ago.			
Language		Discuss Homophones (words that sound the same but are spelled different and have different meanings). Write 3 different homophones and discuss their meanings. Examples HERE if needed.	Play Homophone matching game HERE. Play the version where the words are shown if needed.	Review homophones. Write one set of homophones out and have your child explain the meaning of each word. Repeat with two to three different sets of homophones.	Play Homophone matching game HERE. Play the matching word version.

Social Studies		<p>Plan a family festival! Design a festival that your family will participate in. Decide on meals (with adult assistance if needed) and games that will be at your festival. Games could include activity stations (listed in the physical health section below), rides that you create or short card or board games. Take your family through the festival, explaining everything. Then, enjoy your festival together!</p>		<p>In the story, A Garden in the City, Jamal and many people from his apartment built a garden on the roof of their building. Design your own garden on a piece of paper. Include the items you would plant, make sure they are in your drawing and label your garden. Finally, label the sides of your garden and include the total perimeter on your plans.</p>	
Science		<p>Water and Music Fill glass bottles or glasses with different amounts of water. Next, dip your finger in the water and run your finger around the rim of the bottles or glass. What happens? Try blowing over the top of the bottles. What happens? What do you notice about the different sounds made based on the amount of water in the bottles or cups?</p>		<p>Water and Money For this experiment you will need a penny and a water dropper (or your finger!) Test Question: How many drops of water will a flat penny hold before it spills? Make your hypothesis and try your experiment. Were you right? Next test question: Will the same amount of water hold on both the heads side and the tails side? Make your hypothesis and test it out! What did you find?</p>	
Physical Health		<p>Activity Stations Make activity stations in different parts of a room, designating an activity to complete in each station. Some examples could be knee high corner, pushups, running in place, high jumps, squats, crab walking or balancing, etc. Set timers and rotate through the stations.</p>	<p>Balloon Volleyball Using a balloon, hit it back and forth to each other without letting it hit the ground!</p>	<p>Balloon Waddle Create a race path in your house. Next, place a balloon (or something else) between your knees and squeeze your knees together so it doesn't fall out. Then, complete the path as fast as you can, being timed. Each person tries. Who was the fastest one to complete the path?</p>	<p>Go for a walk Walk around your backyard, your house, or walk along the whole interior perimeter of your house. How many times can you do this in five minutes? Next, skip or walk backwards.</p>

Brain Break		Charades Have your child pick a word and act it out without talking. Use THESE cards or come up with your own!	See it, Draw it Draw a simple picture. Show your picture to a partner and let them look at it for five seconds, then hide the picture. Your partner will then create the same picture from what they remember. Compare the pictures to see how close they are.	Pause, Rewind Person one does a simple routine, like taking five steps forward and jumping three times. They then say 'Rewind!' The other players need to do the same things, but in reverse! They need to jump three times and take five steps backwards!.	Yoga for Kids Yoga time! Practice any moves you already know or use this video to help.
