

EDUPRIZE Kindergarten Academic Extensions During School Closures

	Monday 3/23	Tuesday 3/24	Wednesday 3/25	Thursday 3/26	Friday 3/27
Math		Get out 10 items that are the same. Ask the child to break the 10 items into two groups. (i.e. 2 and 8, 5 and 5, 6 and 4, etc.) Write the number sentences and read them together. (i.e. 2+8=10)	DreamBox 15 minutes Student access If needed, check with your teacher for username and password.	Get out 10 items to practice subtraction. Put 5 in front of the child. How many are there? Count them together. Take away 1 (physically remove one of the items.) How many are there now? Count together. Write the number sentence. Continue practice like above.	DreamBox 15 minutes Student access If needed, check with your teacher for username and password.
Reading		Read Veteran's Day . Discuss the holiday with your child.	Free Choice. Read any book to your child or have your child read one book to you. Have them tell you what the story was mostly about.	Read A Late Thanksgiving Dinner . Discuss your favorite thing about Thanksgiving.	Free Choice. Read any book to your child or have your child read one book to you. Have them tell you a few things that happened in the story (some key details).
Writing		Practice writing your name three times.	Practice writing your ABCs - lowercase letters only.	Write about the things that you ate for dinner last night.	Practice writing your ABCs - capital letters only.
Language		Open Sight words here for the week or write them (grow, water, left, right). Child reads words or an adult reads and the child repeats.	Read sight words for the week. Preposition Scavenger Hunt: Ask your child to identify things that are <u>under</u> other things. (i.e.	Read sight words for the week. Preposition Scavenger Hunt: <u>above</u>	Read sight words for the week. Preposition Scavenger Hunt: <u>next to</u>

			Point to the toy that is under the chair, point to yellow lego that is under the blue one.)		
Social Studies		Four Seasons: Discuss the four Seasons. Talk about what the weather is like in each of those seasons.	Four Seasons: Divide a piece of paper into fourths, label each fourth with a season, and draw a picture of that season. Complete Seasons craft too!	Four Seasons: Review the four seasons. Discuss a few of the holidays that fall during each of the seasons.	Four Seasons: Put together the Season's Spin or look at the pictures to see each season and the months within that season.
Science		Living vs. Non-Living Talk about things that are living and things that are non-living. Identify things around your house that are both living (people, pets, plants, flowers) and things that are non-living (toys, furniture, cups)	Living vs. Non-Living Review things that are living and things that are non-living. If possible, print this sorting activity and complete it with your child.	Life Cycle of a Human Talk with your child about the life cycle of a human. Baby - Toddler - Child - Teenager - Adult - Elderly. Discuss things that humans do during these different stages.	Life Cycle of a Human Review the life cycle of a human. Use these sequence stories.
Physical Health		Freeze Dance Game: Play music and dance. When the music stops, freeze! Add variations such as freezing on one foot or freezing with a silly face.	Drill Sergeant: Explain the role of a drill sergeant and instruct your child to complete the tasks you ask, such as march in place, jumping jacks, and taking a specific number of steps. Add fun responses, like 'Sir, yes Sir!'	Mirror Me: Have your child stand in front of you, facing you. Tell your child that you are going to be a mirror and do everything they do. Have your child move their arms, legs, and make faces and you mirror what they do. Make sure to switch roles!	Lead Dancer: One person takes the lead and makes up a fun dance routine. Next they teach everyone that routine!

Brain Break		<p>Play It Makes Me Happy: Sit in a circle or across from each other if it's just two. First person says something that makes them happy. Everyone stands up if it's something that makes them happy too. Continue taking turns.</p>	<p>Play Simon Says. Take turns being the leader. This game helps with listening, following directions and is great for movement.</p>	<p>Build a fort using blankets, pillows, chairs and tables. Let your child take the lead as much as possible with planning, constructing and problem solving.</p>	<p>Put on a family talent show! Each member of the family gets to show off a great skill they have, like singing a song or playing an instrument (you know, those drums that they received as a birthday present), or completing a dance!</p>
