

WELCOME TO

Welcome to our Fitness program here at EDUPRIZE School. This program is all about being active and having fun. We are looking forward to an action-packed year full of exciting ways to make new friends and learn about teamwork.

In this program we will pursue age and ability appropriate activities geared towards respect and appreciation of good sportsmanship. Your student will be encouraged to play fair, respect others, be in control of his/her body, and to encourage others to succeed. We have developed games and activities geared towards improving agility, balance and coordination. Don't worry if your student is not the next superstar athlete. Not all of our games are related to a particular sport. We just look to make fitness fun for everyone.

In our Fitness program, we believe in giving your student the ability to take pride in their accomplishments throughout their enrollment in the program. Our program will encourage students to have fun in supporting others, and to enjoy the camaraderie when their teammates cheer them on!

We look forward to having your student join us on this adventure in sportsmanship through fitness.

Sincerely,

Lisa Larrabee

STEAM/K-PLUS Team Lead
