

Dear Parents,

Welcome back to 2023-24 school year. This will be my 3rd year teaching online but over 20 years of teaching experience. The school day for 4<sup>th</sup> and 5<sup>th</sup> grade will be from 8:00 am to 12:00 pm this year. Google Classroom will be our primary platform for our school year. Google Classroom will allow me to create subject based files, distribute assignments, see and grade work, and send your child immediate feedback. Through their school email, they need to accept a google classroom invite.

Suggested supplies your child may need while distant learning: Computer/laptop or iPad with camera and microphone, mouse, headphones (great for noise cancellation and limited distractions), access to a printer if possible. EDUPRIZE will be providing math Problem Set books and any other consumables that the student needs.

Daily Live Lessons are Monday-Friday (Whole Group/Small Groups). The small Groups will be developed as time progresses. Daily independent assignments in core subjects will be given after each LIVE session.

Once I get my class roster, I will be sending out a power point presentation explaining, in greater detail, my online program. I am looking forward to facilitating you learning this year.

Terry Maurer

EOI teacher
