

Hi! My Name is Mrs. Bren Irvine and I will be one of the kindergarten specialists this year! I have three kids at EDUPRIZE: twin boys in high school and a daughter in elementary school. I love to read, swim, learn to make my favorite meals at home, and be by the water.

I will be the science specialist. I have worked at EDUPRIZE since 2016. This year students will learn and grow through experiments, books, hands on learning and art. The skills we learn this year will be used and built upon through the students' time in school.

I'm so excited to meet your student in the next few weeks.
